ABOUT ME

Hello, I'm a Computer Engineering pass out from TU,IOE Purwanchal Campus, Dharan with in depth understanding of computer fundamental include OS, DBMS, DSA, Network , Artificial Intelligence & Machine Learning . In addition I also have some experience working with the latest tech stacks to build systems. I would also like to introduce myself as a quick learner, team player and a motivated engineer. I'm currently looking for internships and fresher jobs.

EDUCATION

Bachelor of Engineering — Computer Engineering

2078 – 2082 BS

TU, IOE Purwanchal Campus, Dharan

Percentage : 64.28%| 69.23%| 67.89%| 76.56%| 72.57%| 76%| 73.45% (Up to 7th semester)

Intermediate Level Education (TSLC) - Technical & Vocational Stream

2077 BS

Shree Durga Model Secondary School, Kalaiya

CGPA: 3.44 | Includes OJT

Secondary Education Examination (TSEE) -Technical & Vocational Stream

2074 BS

Shree Durga Model Secondary school , Kalaiya

GPA :3.56 | includes OJT

PROJECTS

RAG-Based Nepali Chatbot

Developed an intelligent conversational agent using Retrieval-Augmented Generation (RAG) to deliver contextually accurate responses in the Nepali language. Integrated a vector database for efficient document retrieval with an LLM backend for domain-specific, high-relevance answers.

Stack: Python,djangorestframework,ReactJS, Hugging Face Transformers,Groq,Sqlite,chromaDB.

Image Colorization Using GAN

Trained a deep learning model to colorize grayscale images using a GAN based on a ResNet-18-backed U-Net architecture. Implemented in PyTorch with adversarial training, achieving realistic and visually coherent colorization results.

Stack: Python, PyTorch,pandas,numpy,matplotlib

Real Time Chat Application

Developed a real time chat web application where registered user can chat with other registered user in real time .Implemented in MERN stack Express and NodeJs for backend, ReactJs for frontend ,mongoDB for Database and websocket(socket.io) for real time chat storage and retrieval.

Stack: MERN,Cloudinary,socket.io

TECHNICAL SKILLS

Languages: C, C++, JavaScript,Python

AI / ML: PyTorch, Hugging Face Transformers, LangChain, scikit-learn,numpy,pandas,matplotlib

Web & Frameworks: ReactJS, NodeJs,Django, FastAPI

Tools & DevOps: Git, GitHub, VS Code, Postman, Docker (basic)

Databases: MySQL, PostgreSQL, MongoDB

Learning: System Design

ADDITIONAL INFORMATION

Languages: Bhojpuri(Mother tongue) |Nepali | English | Hindi (Can read,write and communicate)

Soft Skills: Teamwork, Communication, Leadership, Problem Solving
